

# Important Guidelines for Using the Photo Studio

**Access to the studio is permitted only with clean indoor/change shoes. Street shoes are strictly prohibited throughout the entire studio.**

Please arrive on time. Your booked time begins and ends at the agreed time. Late arrival will shorten your usage time, and leaving the studio late may result in additional charges.

Please plan sufficient time for setup, breakdown, and cleaning within your booked time.

All sets and areas may be used, but must be returned to their original condition after use. Furniture and decorations may be moved carefully, but must be returned completely and exactly to their original position.

Shoes with dark or marking soles, as well as clothing or accessories that may stain or damage furniture, floors, or textiles, are not allowed.

Food and drinks are permitted only in the designated kitchen area. Food and drinks are strictly prohibited in all other sets, on beds, sofas, and studio furniture.

Smoking, candles, and any open flames are strictly prohibited throughout the entire studio. Animals are allowed only with prior approval.

Please inform us in advance if you plan to use special props, liquids, oils, confetti, or other materials.

The maximum number of persons must be respected. Additional persons or photographers must be registered in advance.

The renter is responsible for the studio and liable for any damage or excessive dirt caused during the rental period.

A valid ID must be brought and presented upon request.
